## These Hospitality Companies Already Love Us

A woman with dark hair, wearing a black blazer over a white top, is smiling and holding a tablet computer. She appears to be in a professional setting, possibly a hotel lobby. On the tablet screen, there is a user interface for a company management app. The app shows a sidebar with icons for Company Updates, Open Positions, Human Resources, and Operations. A modal window titled "Annual Team Event!" lists three options: "Cooking Together" (checked), "Karaoke Night", and "Go-karts". A blue button at the bottom of the modal says "View Voting". In the top right corner of the main image, there is a speech bubble containing a conversation in Spanish and English. The Spanish message reads "Hello Sofía, Were there any problems in your shift today?" and the English response is "Todo ha ido bien!" (Everything went fine!). There is also a "Translate" button next to the Spanish message. A thumbs-up icon is visible to the right of the English message.

# Reach And Connect With Associates Easier, and Faster With Beekeeper

Looking for an app for hospitality workers? Engage your entire frontline staff with Beekeeper. Get the important conversations started for a better overall employee experience.

Real-time direct and group chats

## Better Customer Service

50% More Time Back to Serve Your Guests

Let's chat

The image shows a woman with dark hair in a bun, smiling at the camera while working at a bar counter. A digital interface is overlaid on the image, providing information about her shift. The interface includes a 'Next Shift' section with a purple square icon labeled 'Reception | Opening Shift'. It also displays 'Status' (To Do), 'Due Date' (Urgent), and 'Assignee' (Noon Shift Team). Below this is a 'Description' field with several redacted lines. In the top right corner, there's an 'Integrations' button with three gears and a calendar for June 2023. The calendar highlights 'Early Shift' on Tuesday, June 23rd, from 8-12. A Microsoft Excel icon is also present.

## Go Digital, Boost Productivity, and Save Big

Empowering employees with access to digital tools and information helps keep staff informed, engaged, and enabled with solutions they need to deliver their best work.

A Beekeeper-powered property with **300 employees saves over \$100,000 annually** from lower turnover, increased productivity, less printing, inline translation, and smooth operations.

Access to information in seconds – not days

Boost upsells and cross-sells across the property

Save 5-7 hours for managers weekly by digitizing tasks and processes

Easily manage and coordinate shift schedules with better shift communication

**“Beekeeper has been critical in getting information out – from hotel openings, benefit enrollment, and more! Our CEO does his company-wide address on the platform. Every hotel has a stream to engage team members in workplace scheduling, guest requests, and best practices”**
